EXHIBIT "A"

PROPERTY TAX ABATEMENT POLICY TAYLOR COUNTY, TEXAS

PHILOSOPHY

Tax abatement is an economic development strategy to mitigate the heavy costs usually associated with the construction of a new or expansion of an existing facility that enhances the economic or social base of the community. Because property tax revenue is the means to provide vital community services, it is the philosophy of county government that tax abatement be considered only after careful review of the economic impact for Taylor County. Nothing herein shall imply or warrant that Taylor County is under any obligation to provide tax abatement to any applicant.

ELIGIBILITY

This policy document provides criteria for eligibility and aspects of implementation as adopted by the Commissioners' Court of Taylor County, Texas, in accordance with Texas Tax Code, Chapter 312, otherwise known as the Property Redevelopment and Tax Abatement Act (the "Act"), and governing property tax abatement agreements. All applications will be considered on a case-by-case basis.

The following types of enterprises are eligible to apply for tax abatement:

- Industrial

Excluded from eligible personal property are inventory, tools, furnishings, supplies, or other forms of movable personal property.

GUIDELINES

1. Tax abatement applies to increases in real and/or personal property due to the construction of new facilities and structures as well as the expansion or modernization of existing facilities and structures.
2. Tax abatement can apply to a leased facility; however, the agreement shall be executed only with the property owner. In such cases, the property owner shall demonstrate binding contract(s) with the lessee(s) to guarantee job creation.
3. *Tax abatement may be granted only for the additional value of eligible property improvements made and specified in an abatement agreement between the County and the property owner or lessee, subject to such limitations as the County requires.*

The additional value must exceed any reduction in the fair market value of other eligible property of the owner located within the County's jurisdiction. Change in appraised value does not qualify for abatement except in the instance where a previously vacant facility is utilized. Value added to the tax rolls must come from actual capital expenditures.

4. Real and/or personal property tax abatement may be granted only to the extent that the property value for each year of the agreement exceeds the property value for the year in which the agreement is executed. The value for the year in which the agreement is executed shall be referred to as the "base value" and shall be the January 1 valuation of the year in which the agreement is executed.
5. With the intent of avoiding any possible erosion of the existing tax base, the County reserves the right to determine the base value upon which abatement may be calculated if the applicant owns other property/properties in Taylor County which may be affected by the granting of tax abatement.
6. A tax abatement agreement may not be executed unless the area for which tax abatement is requested meets the criteria for designation as a tax abatement reinvestment zone as set forth in the Act. Areas located in one of Taylor County's three enterprise zones meet the criteria without further designation. The Commissioners' Court of Taylor County, Texas, may adopt an ordinance designating a tax abatement reinvestment zone only after a public hearing has been held.

7. No tax abatement agreement for industrial, manufacturing, distribution and service businesses shall exceed a term of 10 years from the date of execution. Abatement agreements for retail businesses shall not exceed 5 years and agreements for properties subject to a voluntary cleanup agreement with TCEQ shall not exceed 4 years.
8. Individual taxing units governing a reinvestment zone may choose to grant tax abatement to an owner or lessee, but according to state law, if granted, the terms of the agreement are not required to be identical to the agreement approved by the City of Abilene.
9. At any time before expiration, any tax abatement agreement may be terminated or modified by the County if the property owner fails to comply with the terms of the agreement.

CRITERIA

1. A tax abatement agreement must:
 - list the kind, number, and location of all proposed improvements to the property;
 - provide for County employees to have access to and authority to conduct inspections of the eligible property to ensure that the improvements or repairs are made in accordance with the agreement and in compliance with all relevant local, state, and federal laws and regulations including, but not limited to Building, Plumbing, Water, Electrical, Mechanical, and Fire Codes;
 - limit the uses of the eligible property to remain consistent with encouraging development or redevelopment of the zone during the term of the tax abatement agreement;
 - provide for recapturing property tax revenue lost as a result of the agreement if the owner or lessee of the eligible property fails to make the improvements or repairs as provided by the agreement or create the specified number of jobs;
 - contain each term agreed to by the property owner and lessee provide that the owner of the property will use reasonable efforts to maximize Taylor County goods and services in the construction, operation and maintenance of the proposed improvements to the property;
 - require the owner of the property to certify annually to Taylor County that the owner or lessee is in compliance with each applicable term of the agreement;
 - provide that Taylor County may cancel or modify the agreement if the property owner or lessee fails to comply with the agreement.
2. The owner or lessee of eligible property requesting tax abatement within a tax abatement reinvestment zone or enterprise zone shall invest a minimum amount of capital and provide a certain number of full-time equivalent employment positions as further defined below.

3. The word "job" as referred to herein means a full-time equivalent employment position and is one that provides at least 2,080 hours annually including paid leave (such as vacation, sick leave, jury duty), excluding overtime hours within the County's taxing jurisdiction. The number of full-time equivalent employment positions is determined by adding the total number of hours worked and/or actual paid leave (such as vacation, sick leave, jury duty) of all employees, less overtime hours, and dividing that sum by 2,080. All existing jobs as well as those created must be maintained throughout the term of a tax abatement agreement. The agreement shall require the Owner to make reasonable efforts to employ persons who are residents of Taylor County to fill the jobs to be created. The Owner shall not be required to employ Taylor County residents who are not (i) equally or more qualified than non-Taylor County residents; (ii) available for employment on terms and/or salaries comparable to those required by non-residents or (iii) able to become qualified with 72 hours of training. In the event a Taylor County resident could become qualified with a maximum of 72 hours training, the Owner shall be required to provide such training.
4. If the minimum requirements are not met during the period as negotiated in the agreement, the percentage of abatement shall be reduced to the level of abatement at which minimum requirements have been met, and any taxes abated before the adjustment may be recaptured by the County.

In addition, abatement approved under "Industrial, Manufacturing, Distribution and Service Businesses" must meet the following:

5. "Minimum Wage" as referred to herein means the minimum hourly wage paid to an employee. Employers receiving Tax Abatement must pay a minimum wage to at least 70% of the new jobs created equal to \$3.00 per hour over the current federal minimum wage provided the company has a health benefits plan or \$4.25 per hour over the current federal minimum wage if the company does not have a health benefits plan.
6. The Owner of the property shall not be required to use goods and services provided by Taylor County residents that are not (i) of similar quality to those provided by non-residents or (ii) made available on terms, conditions and price comparable to those offered by non-residents. Comparable price means less than or equal to 105% of the non-resident price for goods and services of equivalent quality, conditions and terms.

APPLICATION

In determining how and with whom tax abatement will be utilized, the County will examine the potential return on the public's investment, including net jobs created, jobs retained, wage levels, broadening of the tax base, expansion of the economic base and competitive impact upon existing industries. Approval is contingent upon final consideration and action by the Commissioners' Court of Taylor County, Texas. To the extent permitted by law,

information provided by an applicant in connection with a request for tax abatement is confidential and not subject to public disclosure until the tax abatement agreement is executed.

APPLICATION FEE

A fee of \$1000 must accompany an application.
